

SUMTER CHRISTIAN SCHOOL
WORKBOOK AND CLASS FEES
PRICE LIST 2018

The appropriate workbook and class fees will be assessed to your account and will be due by August 10 (Open House Day). The charges will appear on your account on the FACTS website sooner than that, but you will notice the due date is not until August 10. Of course, these fees may be paid in advance, if you prefer, and you may also pay in installments. The first day of school is August 13.

E-Books for Tablets, iPads, etc. (Optional for Math and Science in grades 6-12) \$35.00

All students will receive a “hard copy” math textbook. The eText is an optional addition.

BJU Press eTextbooks are offered through the VitalSource Bookshelf[®] platform. VitalSource[®] is the preferred and most used e-textbook platform in higher education today.

- Simple process - After the book is purchased, the student/parent signs up for a free VitalSource Bookshelf account online, enters the special code received from BJU Press, and receives the eTextbook in his virtual bookshelf.
- Anywhere, anytime access - The student gets three-way access to his eTextbook: desktop, online and mobile for an entire year. Free apps which allow offline viewing are available for PC, Mac, iOS (iPad, etc.) and Android devices.
- Study features - Students can highlight text, define text (iOS only), write notes, and search eTextbook contents and notes.
- Note-sharing - Students can share notes or subscribe to friends' or teachers' notes. Notes are synchronized across all devices.
- Page fidelity - Pagination in both hard copy textbooks and eTextbooks is the same, enabling all students to be on the same page no matter which version they use in the classroom.
